Manuscript Report Series

The Manuscript Report Series/Travail inédit is a reference collection of unedited, unpublished research reports reproduced in printed form in limited numbers. The series was intended to meet immediate research or site development needs and to have Parks Canada work on record.

The reports have been prepared by headquarters, regional and contract researchers in support of Parks Canada programs. As a general rule, reports in the series appeared in the language of the author; they were not translated and were identified as "Manuscript Report" or "Travail inédit" depending on the language in which they were written.

Reproduction of a report in the series did not preclude its later editing, translation and publication; however, not all Parks Canada publications necessarily appeared first in the Manuscript Report Series.

MANUSCRIPT REPORTS ARE NOT FOR SALE. To ensure that our findings are a matter of public record and accessible to scholars, copies of Manuscript Reports were deposited in the federal and provincial archives and in the Natural Resources Library of the U.S. Department of The Interior (see below). Those who require specific material for research purposes should be able to obtain photocopies of reports from these depositories at prices that cover photocopying and mailing costs. Alternatively, copies may be borrowed on interlibrary loan from the Parks Canada libraries in Ottawa and in the regional offices (see below).

In the following list of Manuscript Reports, the date cited in parentheses refers to the date the report was written, not the date it was reproduced in the series. The list also identifies those reports that have been subsequently published by Parks Canada.

In 1982 the Manuscript Report Series was discontinued. Parks Canada's unedited, unpublished research reports are now reproduced in the Microfiche Report Series/Rapport(s) sur microfiches.

A subject index of Manuscript Report Numbers 1 to 341 appears in C.J. Taylor's "Parks Canada's Manuscript Report Series," Archivaria, No. 12 (Summer 1981), pp. 65-119.

Canadian Historic Sites
Occasional Papers in Archaeology and History

Initially, issues in this for-sale series bore the combination title Canadian Historic Sites/Lieux historiques canadiens and were published in the language of the author; later issues were published simultaneously in separate English and French versions.

Although no new issues will be published in this series, issues still in print continue to be available through authorized Canadian government bookstore agents and other bookstores, or by mail from the Canadian Government Publishing Centre, Supply and Services Canada, Hull, Quebec, Canada K1A 0S9. Orders should be accompanied by cheques or money order, in Canadian funds, payable to the Receiver General for Canada.

Holders of Mastercard or VISA cards can also place orders by calling the Canadian Government Publishing Centre Telephone Orders Section at (613) 997-2560.

1 **John H. Rick**, Archaeological Investigations of the National Historic Sites Service, 1962-1966
K.E. and **M.A. Kidd**, A Classification System for Glass Beads for the Use of Field Archaeologists
Margaret Coleman, The Roma Settlement at Brudenell Point, Prince Edward Island
(1974, reprint; OUT OF PRINT)

Series discontinued

Microfiche Report Series

In 1982 Parks Canada ceased production of the conventionally printed Manuscript Report Series and replaced it with the microfiche Report Series/Rapports sur microfiches.

Reports in the series appear in the language of the author; they are not translated and are identified as "Microfiche Report" or "Rapport sur microfiches" depending on the language in which they were written.

Reproduction of a report in the series does not preclude its later editing, translation and publication; however, not all the material that Parks Canada publishes necessarily appears first in the Microfiche Report Series.

MICROFICHE REPORTS ARE NOT FOR SALE. As with the earlier, printed series, copies of Microfiche Reports are deposited in the federal and provincial archives and in the Natural Resources Library of the U.S. Department of The Interior (see p. M.R.S.-2). Those who require specific material for research purposes should be able to obtain microfiche copies of the reports at nominal prices from these depositories. Alternatively, copies may be borrowed on interlibrary loan from the Parks Canada libraries in Ottawa and in the regional offices (see also p. M.R.S.-2).

In the following list of Microfiche Reports printed to date, the date cited in parentheses refers to the date the report was written, not the date it was reproduced in the series.

Research Bulletins

Research Bulletins are short papers describing current Parks Canada headquarters and regional research projects.

Research Bulletins are not for sale. Issues are available, while supplies last, to interested researchers by mail from the Head, Research Publications, Parks Canada, 1600 Liverpool Court, Ottawa, Ontario, Canada K1A 1G2.

Research Bulletin Nos. 1-81 were printed in the language of the author; subsequent issues were printed in separate English and French versions.

1 Projet de recherche sur le chauffage domestique au Canada; Marcel Moussette, mars 1971. (OUT OF PRINT)
